

Corporate Backgrounder

The Company

CloudWyze, headquartered in Wilmington, NC, provides the Ultimate Business Technology Experience. The company offers comprehensive communications and technology services, such as Internet service, Phone systems, Cloud-based infrastructure solutions, and 24x7 technical support. Its consultative approach gives business owners complete confidence in their technology.

CloudWyze was founded in 2012 initially offering IT services and phone systems. The Cloud-focused company has since built its own network to become the premier business-class Internet Service Provider. The company raised capital in 2012 and 2014 to seed the start of these new offerings that help businesses ranging from 5-500+ employees gain confidence in their technology.

Founded

2012 (as CloudWyze)

Headquarters

Wilmington, NC

Products and Services

CloudWyze Internet: dedicated Internet for companies that need reliable access to the Internet, not just more bandwidth.

CloudWyze Phones: enterprise-grade systems and service to assure outstanding communication.

CloudWyze Cloud Services: offering companies the competitive advantage of a web-based infrastructure, from design to implementation and support.

CloudWyze Technology Consulting and Support: comprehensive analysis of business technology systems, advice and execution of strategy to meet operations goals, and the customer service to support every need.

Key Executives

Shaun Olsen, President and CEO

Shaun Olsen, founder and CEO of Wilmington's cloud-based communications and technology company CloudWyze, is a prominent leader in the region's burgeoning business and technology community. His role at the company is to assure the embodiment of the brand promise: delivering the ultimate technology experience for CloudWyze customers.

Shaun has been a part of numerous start-ups over the past 15 years, including founding BBXComputers, AcoustiCreations, Port City Multimedia, and Opterex. He received a degree in Business Administration from the Cameron School of Business at the University of North Carolina at Wilmington. He is an active-member of the Center of Innovation and Entrepreneurship, the Cameron Executive Network, Cameron Executive Advisory Board, as well as a contributor/advisor to a number of other professional organizations within the greater-Wilmington area.

Wells Struble, CFO and Director of Operations

Wells Struble joined CloudWyze as the CFO and Director of Operations in 2014, and oversees day to day operations of the business functions with a focus on the financial position of the company. Prior to joining CloudWyze, Wells was Co-Founder and CFO of The Fuzzy Peach Frozen Yogurt Bar, where over a 3 year span he and his partners grew the business from its original location to 20 franchised locations across the United States. It was acquired by a publically traded company in February of 2014. Wells also worked at International Paper, GE, Merrill Lynch, and the Wrightsville Beach Fire Department.

Wells received a degree in Business Administration (Finance and Leadership) from the Cameron School of Business at the University of North Carolina at Wilmington in 2007. He is an active-member of the Center of Innovation and Entrepreneurship as well as a mentor to small businesses in Wilmington, current students at UNCW, and a volunteer Hoggard High School track and field coach.

Richard Schofield, Chief Technology Officer

Richard Schofield oversees all technology services, product analysis, and software architecture at CloudWyze. The technology organization includes service delivery and response, R&D, product security, standards, as well as Datacenter services and user experience. Before leading technical development at CloudWyze Inc., Richard was the Network Administrator with BBXComputers and was responsible for the design, support, maintenance and evaluation of computer networking and telecommunication systems. Richard was also Lead VoIP Engineer at Opterex, designing and implementing all voice and data networks.

Richard earned his Associate of Applied Science in Network Engineering from Miller Motte Technical College and holds IT certifications from VMware, Microsoft, Citrix and CompTIA.
